

# Invest in us!

We've got **£60 million** new library...

...a **£55 million** sports centre...

...and a further **£606 million** investment around campus.

## Now it's time to invest in staff!

- Support staff have received pay rises below inflation year after year.
- In real terms, a Band 400 Programme Administrator is now £1,800 a year worse off than in 2010.
- The university's strong financial position means it can afford to give staff a decent pay rise!

Dear Professor Eastwood

Support staff are at the heart of the student experience. Their hard work deserves recognition through a real terms pay rise.

It's time to show that the university values the contribution of support staff to the success of the university.

Send a message and show your staff that they are worth it!

Your sincerely

.....
